INTRODUCTION

Welcome to the Copper Mountain Community College District (CMCCD). The CMCCD Security Department is dedicated to the “safe schools” initiatives and promotes a “sense of community” philosophy through strategic problem solving and internal/external partnerships. Through cooperative efforts of students, faculty & staff in reporting suspicious activity, crime or incidents, we can make Copper Mountain College a safe and healthy place to learn and work.

The information in this report is provided in compliance with the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act*, referred to as the *Clery Act*. This act requires that all Title IV institutions prepare, publish & distribute an annual report that contains procedures, policies, crime prevention programs and campus crime statistics. A notice is available annually to students and employees advising them that they can access the report at www.cmccd.edu/security. Hard copies are available in the Business Office, Room 113; Phase I.

Data is compiled through cooperative efforts of Student Services, Campus Security Authorities, incident reports and the San Bernardino County Sheriff’s Department. Crimes can be reported by calling 9-1-1, Security, Student Services, Human Resources and Academic Affairs.

On behalf of CMCCD Security, thank you for helping us keep our campus safe.

CAMPUS SECURITY MISSION STATEMENT

To provide a safe and secure campus environment for our campus community and its visitors and to protect the facilities, property, and assets of the Copper Mountain Community College District.

CAMPUS SECURITY CORE VALUES

- To foster dignity and respect
- To encourage voluntary compliance
- To impartially enforce the law, rules & regulations
- To respect individual rights
- To protect the campus community through pro-active measures

CAMPUS SAFETY

In an effort to improve our response to campus violence, CMCCD has provided the following improvements in the area of Campus Safety:

1. Mass Notification

CMCCD implemented an emergency text message system in August 2008. With this system, you will never receive “spam” or other messages that may interfere with prompt notification of emergencies. We encourage students and staff to sign up for this very important and critical service. You can do so by clicking the ALERTU button inside the “MY CMC” box on the front page of the website.

2. Campus Radios

Portable walkie-talkie radios have been strategically located about campus to improve communications with each distinct area of campus.

3. Emergency Flashlights

Long-life flashlights have been installed in every classroom to provide emergency lighting.

4. Phone Cache

Extra phones are available for emergency responders to provide communication enhancement should we have an extended emergency.

5. Emergency Preparedness

Team training is in compliance with the National Incident Management System (NIMS) and the Standardized Emergency Management System (SEMS).

6. Siren

The new fire alarm panel incorporates a mass notification siren button. In the event of an emergency and as safety dictates, Security will sound this alarm.

CRIME PREVENTION PROGRAMS

DISCLOSURES

Timely Warnings – Code of Federal Regulations 668.46(e)

Any situation that presents an on-going or continuing threat to campus safety, a “timely warning” will be issued by the Director of Security or from the Campus Security Authority. Such warning must be related to crimes reportable under the Clery Act, such as murder, rape, arson, or robbery.

Timely warnings will be emailed to the campus community, posted on the Security website, posted on bulletin boards and a copy will be given to the campus security authorities listed in “Reporting of Criminal Offenses”, below. Timely warnings will most likely originate from the San Bernardino County Sheriff’s Office

Anyone with information warranting a timely warning should report it to the Security Department.

Emergency response & evacuation procedures are tested twice annually via fire alarm maintenance & testing and state-wide earthquake table top & preparedness drills. Advance notification is spread via emails reminding the campus community of upcoming drills and door-to-door communication just prior to the drill. On occasion, an unannounced drill is conducted.
