RE: Copper Mountain College Expansion Project: Compliance Inspection #19, July 2010 for State Incidental Take Permit No. 2081-2005-028-06.

Dear Ms. Jones,

The Copper Mountain Community College District (District or Permittee) has implemented monitoring of pertinent mitigation measures for the above referenced project to protect the desert tortoise (*Gopherus agassizii*) as authorized by Incidental Take Permit Number 2081-2005-028-06 from the California Department of Fish and Game (Department).

As given in the Department's permit, **Mitigation Measure 24, Condition 4.2.4.** (MM24/C4.2.4) *Compliance inspections shall be conducted a minimum of once per month after clearing, grubbing, and grading are completed. A monthly compliance report shall be submitted to the Department's Palmdale office at: Ms. Rebecca Jones, 36431 41<sup>st</sup> Street East, Palmdale, CA 93552, PH/FAX (661) 285-5867.*

**PREVIOUS STATUS:** Compliance inspection #18 was completed on 25 June 2010 and sent to Becky Jones soon thereafter. Previously all construction activities have been enclosed inside the perimeter fence surrounding the Impact Area (IA) The construction of the Multi-Use Sports Complex (MUSC) and Solar Parking Structure (SPS) is complete. The Remodel For Efficiency (RFE) project is remodeling the science laboratories and Student Services offices in previously developed and separately fenced areas of the Phase I and Phase III groups of campus buildings.

**CURRENT STATUS:** This letter documents the compliance inspection by Dr. Paul Delaney on 30 July 2010, which serves as the nineteenth monthly compliance inspection required by MM24/C4.2.4 given above. A single-page compliance inspection data sheet is attached to the end of this report.

**DATE AND TIME OF COMPLIANCE INSPECTION #19:** The inspection was completed by Dr. Paul Delaney on 30 June 2010. Delaney was on-site between 7:25 and 11:58 a.m.

**METHODS:** Delaney walked alongside the fenceline running southeast from Dan Cain’s trailer, headed east along Congressman Lewis Drive to Rotary Way, walked the entire fenceline of the Translocation Area (TA) to check for tortoise sign and raven-predated tortoise carcasses, then walked the entire perimeter of the IA to check fence integrity and sand build-up. He next walked into the IA to check on compliance issues near the Multi-Use Sports Complex (MUSC) and the Solar Parking Structure (SPS). He then walked around the Phase I and Phase III buildings being remodeled in the Remodel For Efficiency (RFE) project.

**RESULTS:**

**Personnel and Vehicles:** Delaney tallied construction personnel and motor-operated vehicles inside the IA, and the cumulative data is presented in Table 1 below. During the current inspection 13 personnel were present, and 12 (92%) wore hard hats *with* tortoise awareness stickers. As in previous visits, this signifies relatively good compliance. Of the 15 vehicles, 1 (7%) *did not* have awareness placards and 14 (93%) displayed awareness placards or stickers. This represents increased compliance compared to May, when 18% of vehicles did not have placards. Vehicles without a placard were in a separately fenced, previously developed area so this non-compliance issue is not considered significant and does not put any tortoises at risk.

<b>TABLE 1. SUMMARY DATA FOR PERSONNEL AND VEHICLES</b>						
<b>Inspection # /Month</b>	<b>Personnel [# (%)]</b>			<b>Vehicles [# (%)]</b>		
	<b>#</b>	<b>With Decal</b>	<b>W/out Decal</b>	<b>#</b>	<b>With Placard</b>	<b>W/out Placard</b>

8. Aug 2009	25	21 (84%)	4 (16%)	28	24 (86%)	4 (14%)
9. Sep 2009	14	12 (86%)	2 (14%)	21	17 (81%)	4 (19%)
10. Oct 2009	26	24 (92%)	2 (8%)	27	24 (89%)	3 (11%)
11. Nov 2009	25	23 (92%)	2 (8%)	28	21 (75%)	7 (25%)
12. Dec 2009	22	20 (91%)	2 (9%)	26	22 (85%)	4 (15%)
13. Jan 2010	18	15 (83%)	3 (17%)	21	20 (95%)	1 (5%)
14. Feb 2010	15	14 (93%)	1 (7%)	19	16 (84%)	3 (16%)
15. Mar 2010	12	10 (83%)	2 (17%)	16	13 (81%)	3 (19%)
16. Apr 2010	11	10 (91%)	1 (9%)	14	12 (86%)	2 (14%)
17. May 2010	10	9 (90%)	1 (10%)	17	13 (77%)	4 (23%)
18. June 2010	15	13 (87%)	2 (13%)	17	14 (82%)	3 (18%)
19. July 2010	13	12 (92%)	1 (8%)	15	14 (93%)	1 (7%)

\*37 = In both January and February 2009 there were personnel having lunch and not wearing hard hats. So the total number of personnel with and without hard hat decals is less than the total number of personnel.

**Education Program:** *As per MM4/C4.1.4, the Permittee is required to administer education programs. Field Contact Representative (FCR) Dan Cain conducts most of these programs as needed. He maintains the comprehensive sign-up sheet should the Department want to see that.*

**Trash Abatement:** *As per MM5/C4.1.7, the Permittee is required to maintain a litter-free environment to avoid attracting opportunistic predators. Volunteers from the college removed litter from the IA and TA during several abatement efforts in April, May and June 2010. During the current inspection, Delaney tallied 55 pieces of litter in the IA and 29 in the TA (see Table 2 for cumulative information).*

<b>TABLE 2. SUMMARY DATA FOR TRASH &amp; LITTER</b>		
<b>Visit #/Date</b>	<b>Litter inside Translocation Area</b>	<b>Litter inside Impact Area</b>
1. Jan 2009	18 (11%*)	138 (89%)
2. Feb 2009	15 (29%)	36 (71%)

17. May 2010	12 (28%)	31 (72%)
18. June 2010	11 (28%)	28 (72%)
19. July 2010	29 (35%)	55 (65%)

\* Percentages are derived from the total amount of litter observed on a given visit, which is the percentage of the total observed in each of the two areas for that particular visit.

**Translocation Area:** *As per MM9/C4.3.1, the Permittee is required to establish the Translocation Area (TA) and maintain it for tortoise conservation. Dan Cain previously registered the conservation easement for 84.32 acre TA with San Bernardino County.*

**Permanent Fencing Around Completed Campus Expansion:** The Service previously approved a permanent smooth-wire fence, with tortoise-exclusion fencing attached to the bottom, around the completed expansion site to exclude tortoises from that area.

**Raven Predation of Juvenile Desert Tortoises In Translocation Area and Campus Area:** No raven-predated tortoises have been found in the TA or IA since June 2009. The District will continue to focus weekly raven surveys on the TA fence-lines to check for raven-predated

tortoises and minimize predator subsidies or attractants. Five shade shelters constructed along the northern TA fence-line in September 2009 are monitored for desert tortoise activity during the weekly and monthly surveys. Adult tortoise scat was detected outside one of the shelters during June and July 2010.

**Increased Raven Population on Campus:** During the July 2010 inspections an increase in the raven population on campus was noted. There are currently five ravens nesting near or on campus. During the July compliance inspection Delaney noted that the ravens were being subsidized by a pond on campus at GPS (NAD 27) location: 11S 0572501/ UTM 3777831. He also noted that a dumpster used by the cafeteria was missing a lid. Delaney contacted FCR Dan Cain to eliminate these predator subsidies. This group of ravens was observed to move between perch sites located at: 1) the north end of the Autoshop Building on campus, 2) a grove of trees on private property at the intersection of Highway 62 and Rotary Way, and 3) utility poles approximately 1/2 mile north of Whitmore Road.

**Status of Pet Tortoise Removed From Translocation Area:** During the population survey in April 2010 a pet tortoise was found in the Translocation Area (TA). Its prior pet status was indicated by a pink heart painted on its carapace. LaRue and Delaney suspected that the tortoise had an upper respiratory tract infection due to occlusion of its nostrils and presence of abnormal breath sounds. After consulting with Brian Croft of the USFWS, the tortoise was removed from the TA and quarantined off-campus. A subsequent blood test indicated that the tortoise had positive antibody titers for *Mycoplasma testudineum*.

College staff will continue to monitor the desert tortoise population in the TA for any signs of infectious diseases. Delaney contacted FCR Dan Cain to request additional signs advising the public not to release pet tortoises in the TA. The signs will be identical to those already in place. The college also included an advisory about this issue in its regular weekly radio broadcasts. The advisory informed the public that dropping off pet tortoises in the TA could spread infections to wild tortoises. It also urged the public to make use of the tortoise adoption resources present in the community, such as Joshua Tree Tortoise Rescue and similar organizations.

**Tortoise Observations:** As per MM10/C4.3.2, all tortoises are to be translocated out of the IA into the TA and per MM21/C4.3.9 and MM27/C4.2.6, the FCR and others are to be on the lookout for tortoises. Fresh desert tortoise tracks and scat were observed in the 30 July 2010 inspection and their GPS locations are noted below.

**Fencing:** *As per MM11/C4.3.3, MM20/C4.3.8, and MM23/C4.3.4, the Permittee is required to install and maintain fences around both the TA and IA. During the current inspection the fencelines were intact. District personnel will continue to regularly monitor the fencelines.*

**Purchase Compensation Lands:** *As per MM12/C5, the Permittee is required to acquire 80 acres of habitat management lands to offset impacts resulting from campus expansion. The 80-acre compensation parcel located in Thermal Canyon was transferred to the National Park Service on 26 March 2009, which satisfied the Department's requirement for compensation.*

**Purchase Mitigation Lands:** *In June 2009 the Service approved a minor amendment to the Habitat Conservation Plan accepting the District's proposed partnership with the Mojave Desert Land Trust to jointly purchase 955 acres of additional tortoise mitigation land adjacent to Joshua Tree National Park, and ultimately deed this land to the Park.*

**Firearms and Domestic Dogs:** *As per MM18/C4.1.5, the Permittee is required to prohibit firearms and domestic dogs from the site. Canid signs observed inside the TA and IA during compliance inspections are summarized below in Table 4. No evidence of canid predation on desert tortoises was found during the July 2010 compliance inspection. The amount of canid sign in July was reduced compared to the amount of canid sign observed in June.*

TABLE 4. SUMMARY DATA FOR CANIDS (DOGS & COYOTES)		
Inspection # /Date	Canid Tracks in Translocation Area	Canid Tracks in Impact Area
1. Jan 2009	4 (29%*)	10 (71%)
2. Feb 2009	0 (0%)	3 (100%)
3. Mar 2009	1 (25%)	3 (75%)
4. Apr 2009	1 (50%)	1 (50%)
5. May 2009	2 (67%)	1 (33%)
6. June 2009	3 (75%)	1 (25%)
7. July 2009	0 (0%)	0 (0%)
8. Aug 2009	3 (75%)	1 (25%)
9. Sep 2009	2 (66%)	1 (33%)
10. Oct 2009	1 (50%)	1 (50%)
11. Nov 2009	2 (66%)	1(33%)
12. Dec 2009	1 (50%)	1 (50%)
13. Jan 2010	1 (50%)	1 (50%)
14. Feb 2010	2 (40%)	3 (60%)
15. Mar 2010	3 (60%)	2 (40%)
16. Apr 2010	1 (50%)	1 (50%)
17. May 2010	0 (0%)	0 (0%)
18. June 2010	3 (60%)	2 (40%)
19. July 2010	1 (50%)	1 (50%)

\* Percentages are derived from the total amount of canid sign observed on a given visit, which is the percentage of the total observed in each of the two areas for that particular visit.

**Translocation Area Monitoring Program:** *As per MM22/C4.3.11, the District is required to monitor all tortoises moved into the TA and to perform annual surveys in the spring. The first annual survey was performed on April 18-19 2009, and documented in annual reports sent in January 2010 to Rebecca Jones of the Department and Brian Croft of the Service. Focused TA fence-line surveys for tortoises and tortoise sign are performed monthly during compliance inspections by Delaney. The second annual survey was performed on April 22-24 2010, and will be documented in the annual report for 2010.*

**Monthly Compliance Inspections:** *As per MM24/C4.2.4, compliance inspections are to be conducted monthly. This report, completed by Delaney, represents the nineteenth of 30 anticipated monthly compliance reports.*

**Failure to Implement Mitigation Measures:** *As per MM26/C4.2.3, the Permittee is required to notify the Department immediately if any mitigation measures have not been implemented as give in the Permit. Thus far, all mitigation measures have been implemented in a timely manner.*

**Stop Construction Activities:** *As per MM28/C4.1.6, the Designated Biologist and FCR have authority to stop any construction activity that is not in compliance with the Permit. There has been no need to stop construction activities since the first compliance visit in January 2009.*

**Accessing the Construction Site Via Existing Routes:** *As per MM29/C4.1.9, all project-related personnel are to access the site through approved routes and there is to be no cross-country travel.* In March 2010 the gate to Congressman Lewis Drive at Rotary Way was removed for paving the road apron at that intersection. Construction at the Multi-Use Sports Complex is complete and removal of the gate does not constitute a hazard to desert tortoises.

**Clean-up of Hazardous Waste Leaks or Spills:** *As per MM30/C4.1.11, all hazardous waste leaks and spills are to be promptly cleaned up and disposed of properly.* Delaney has yet to find any spills that need to be cleaned up.

**Contain All Construction Activities:** *As per MM31/C4.1.10, all construction impacts are to be confined to the IA with vehicle speeds not to exceed 20 miles per hour.* Delaney saw no evidence that construction impacts had occurred outside the IA.

**Handling Injured Tortoises:** *As per MM32/C4.3.10 and MM33/C4.2.8, all injured tortoises are to be taken to a local veterinarian and the Department contacted and all dead tortoises are to be collected and the Department contacted.* To our knowledge, there have been no tortoises injured or accidentally killed as a result of expansion activities.

**Clean-up Upon Completion of Work:** *As per MM36/C4.1.13, all construction materials are to be removed from the site upon project completion.* It is too early to implement this measure.

**Final Mitigation Report:** *As per MM37/C4.2.7, a final mitigation report must be submitted to the Department no later than 45 days after completion of each phase.* No phases have yet been completed, so it is too early to implement this measure.

**Non-Native Weed Management in the TA:** *Although the Department's Permit does not identify any weed management measures, Section 3.2.2d.8 of the Environmental Assessment identifies the following Translocation Area Management action: "Perform an annual assessment to determine the presence of non-native invasive plant species within the Translocation Area."* During April 2010, volunteer students, faculty and staff removed 1576 non-native mustard species, Moroccan mustards (*Brassica tournefortii*) and tansy mustards (*Descurainia pinnata*), growing along the TA fencelines. This was 2917 fewer plants than the number removed the previous year (4493), despite an increased number of volunteers removing the plants. This is taken as evidence that the weed abatement efforts of the previous year were partly successful.

## **REMEDIAL ACTIONS:**

The District and its subcontractors have conscientiously implemented mitigation measures since the previous compliance inspection, but several issues need to be addressed on an ongoing basis:

**Minimizing Predator Subsidies:** During the July inspection Delaney noted that ravens were being subsidized by a pond on campus at GPS (NAD 27) location: 11S 0572501/ UTM 3777831, and that a cafeteria dumpster was missing a lid. Delaney contacted FCR Dan Cain to eliminate these predator subsidies by grading the pond area and replacing the dumpster lid. The District will continue to focus weekly raven surveys on the TA fence-lines to check for raven-predated tortoises, minimize predator subsidies there, and monitor the tortoise shelters.

**Monitoring Tortoise Population For Infectious Diseases:** After consultation with Brian Croft of the USFWS a pet tortoise was removed from the TA in April and quarantined off-campus. Subsequently the tortoise tested positive for antibody titers to *Mycoplasma testudineum*. District staff (Dr. Delaney) continue to monitor tortoises in the TA for signs of infectious disease. The District has increased its efforts to educate the public about not placing unwanted pet tortoises in the TA, using additional advisory signs along the TA fenceline, radio broadcasts and outreach to local tortoise adoption organizations.

**Trash Abatement:** Personnel from the District removed litter from the IA and TA during mitigation and monitoring activities this month, and will continue these efforts.

**Fence Maintenance:** College staff will continue to monitor the Translocation Area (TA) and Impact Area (IA) fence-lines.

**Weed Abatement:** Delaney will monitor the effectiveness of weed abatement from year to year.

This concludes the nineteenth of 30 anticipated monthly compliance inspections and reports for authorized expansion activities. This report was completed by Paul Delaney and reviewed by Dan Cain and Ed LaRue, who may be contacted using the following information:
