RE: Copper Mountain College Expansion Project: Compliance Inspection #30, June 2011 for State Incidental Take Permit No. 2081-2005-028-06.

Dear Ms. Jones,

The Copper Mountain Community College District (District or Permittee) has implemented monitoring of pertinent mitigation measures for the above referenced project to protect the desert tortoise (*Gopherus agassizii*) as authorized by Incidental Take Permit Number 2081-2005-028-06 from the California Department of Fish and Game (Department).

As given in the Department's permit, **Mitigation Measure 24, Condition 4.2.4.** (MM24/C4.2.4) *Compliance inspections shall be conducted a minimum of once per month after clearing, grubbing, and grading are completed. A monthly compliance report shall be submitted to the Department's Palmdale office at: Ms. Rebecca Jones, 36431 41st Street East, Palmdale, CA 93552, PH/FAX (661) 285-5867.*

PREVIOUS STATUS: Compliance inspection #29 was completed on 25 May 2011 and sent to Becky Jones soon thereafter. The construction of the Multi-Use Sports Complex (MUSC) and Solar Parking Structure (SPS) is complete. The Remodel For Efficiency (RFE) project is remodeling the science laboratories and Student Services offices in previously developed and separately fenced areas of the Phase I and Phase III groups of campus buildings.

CURRENT STATUS: This letter documents the compliance inspection by Dr. Paul Delaney on 25 June 2011, which serves as the thirtieth monthly compliance inspection required by MM24/C4.2.4 given above. A single-page compliance inspection data sheet is attached to the end of this report.

DATE AND TIME OF COMPLIANCE INSPECTION #30: The inspection was completed by Dr. Paul Delaney on 25 June 2011. Delaney was on-site from 6:32 a.m. to 9:45 a.m.

METHODS: Delaney walked alongside the fenceline running southeast from Dan Cain’s trailer, headed east along Congressman Lewis Drive to Rotary Way, then walked the Translocation Area (TA) fenceline to check for tortoise sign, raven-predated tortoise carcasses, and fence integrity. He then walked the Impact Area (IA) perimeter to check fence integrity and sand build-up. He next walked into the IA to check on compliance issues near the Multi-Use Sports Complex (MUSC), Solar Parking Structure (SPS), and the Remodel For Efficiency (RFE) project.

RESULTS:

Personnel and Vehicles: Delaney tallied construction personnel and motor-operated vehicles inside the IA, and the cumulative data is presented in Table 1 below. During the current inspection 6 personnel were present, and 5 (83%) wore hardhat decals. Of the 5 vehicles observed, 4 (80%) had tortoise awareness placards, demonstrating relatively good compliance.

TABLE 1. SUMMARY DATA FOR PERSONNEL AND VEHICLES						
Inspection # /Month	Personnel [# (%)]			Vehicles [# (%)]		
	#	With Decal	W/out Decal	#	With Placard	W/out Placard
1. Jan 2009	31*	27 (93%)	2 (7%)	54	10 (19%)	44 (81%)
2. Feb 2009	37*	26 (90%)	3 (10%)	49	22 (45%)	27 (55%)

22. Oct 2010	10	8 (80%)	2 (20%)	12	9 (75%)	3(25%)
23. Nov 2010	0**	N.A.	N.A.	4	4 (100%)	0 (0%)
24. Dec 2010	6	5 (83%)	1 (17%)	7	6 (86%)	1 (14%)
25. Jan 2011	5	4 (80%)	1 (20%)	9	7 (78%)	2 (22%)
26. Feb 2011	9	7 (78%)	2 (22%)	9	7 (78%)	2 (22%)
27. Mar 2011	3	3 (100%)	0 (0%)	4	3 (75%)	1 (25%)
28. Apr 2011	9	8 (89%)	1 (11%)	12	10 (83%)	2 (17%)
29. May 2011	6	5 (83%)	1 (17%)	8	6 (75%)	2 (25%)
30. June 2011	6	5 (83%)	2 (17%)	5	4 (80%)	1 (20%)

*37 = Personnel having lunch and not wearing hard hats, so total personnel with and without hard hat decals is less than the total number of personnel. **0 = Construction personnel absent due to Thanksgiving holidays.

Education Program: *As per MM4/C4.1.4, the Permittee is required to administer education programs. Field Contact Representative (FCR) Dan Cain conducts most of these programs as needed. He maintains the comprehensive sign-up sheet should the Department want to see that.*

Trash Abatement: *As per MM5/C4.1.7, the Permittee is required to maintain a litter-free environment to avoid attracting opportunistic predators. College volunteers remove litter during periodic abatement efforts throughout the year. During the current inspection, Delaney tallied 69 pieces of litter in the IA and 25 in the TA (see Table 2 for cumulative information). Strong winds during the previous weeks probably account for the increased litter tallied this month.*

TABLE 2. SUMMARY DATA FOR TRASH & LITTER		
Visit #/Date	Litter inside Translocation Area	Litter inside Impact Area
1. Jan 2009	18 (11%*)	138 (89%)
2. Feb 2009	15 (29%)	36 (71%)

28. Apr 2011	37 (34%)	71 (66%)
29. May 2011	23 (32%)	49 (68%)
30. June 2011	25 (27%)	69 (73%)

* Percentages are derived from the total amount of litter observed on a given visit, which is the percentage of the total observed in each of the two areas for that particular visit.

Translocation Area: *As per MM9/C4.3.1, the Permittee is required to establish the Translocation Area (TA) and maintain it for tortoise conservation. Dan Cain previously registered the conservation easement for 84.32 acre TA with San Bernardino County.*

Permanent Fencing Around Completed Campus Expansion: The Service previously approved a permanent smooth-wire fence, with tortoise-exclusion fencing attached to the bottom, around the completed expansion site to exclude tortoises from that area.

Raven Predation of Juvenile Desert Tortoises In Translocation Area and Campus Area: No raven-predated tortoises have been found in the TA or IA since June 2009. The District biologist conducts weekly raven/predator surveys on the TA fence-lines to check for raven-predated tortoises and minimize predator subsidies or attractants.

Raven Population on Campus: During the current month's raven/predator surveys the raven population on campus consisted of 2-4 birds. Campus dumpsters were frequently checked during to ensure they remained closed and were not subsidizing ravens. The ravens observed this month moved between perch sites located at: 1) the north end of the Autoshop Building on campus, 2) trees on private property at the intersection of Highway 62 and Rotary Way, 3) utility poles approximately 1/2 mile north of Whitmore Road, and 4) the roof of the Bell Center.

Tortoise Observations From Monthly Compliance Surveys During 2009-2011: *As per MM10/C4.3.2, all tortoises are to be translocated out of the IA into the TA and per MM21/C4.3.9 and MM27/C4.2.6, the FCR and others are to be on the lookout for tortoises.* The frequency distribution of total desert tortoise scat from monthly compliance surveys from 2009 to the present, using 10-meter wide transects along the TA fencelines, are depicted in Graph 1 below. GPS locations of tortoise signs found were listed in compliance reports for those months.

The total quantities of tortoises and tortoise signs observed during monthly compliance (fenceline) surveys are shown in Table 3 below. (Note: subadult and juvenile scat are combined in one category as Subadult Scat)

Table 3. Desert Tortoise Signs Observed on Monthly Surveys of the CMC Translocation Area Fencelines, January 2009 through June 2011.

Tortoise Observations From Monthly Compliance Surveys During 2011: The GPS locations of tortoise sign found during 2011 compliance inspections are noted below. Fresh tortoise scat and a burrow were observed during the April 2011 compliance inspection.

Translocation Area Monitoring Program: *As per MM22/C4.3.11, the District is required to monitor all tortoises moved into the TA and to perform annual surveys in the spring. The first two annual surveys were performed in 2009 and 2010, and documented in annual reports. The third annual survey was performed on 16-17 April 2011 and will be described in the annual report due in January 2012. Focused TA fence-line surveys for tortoises and sign are performed monthly during compliance inspections. Data from these are listed in Table 3 and Graph 1.*

Translocation Area Fencing: *As per MM11/C4.3.3, MM20/C4.3.8, and MM23/C4.3.4, the Permittee is required to install and maintain fences around both the TA and IA. The TA fencelines are intact and District personnel continue to regularly monitor their condition.*

Purchase Compensation Lands: *As per MM12/C5, the Permittee is required to acquire 80 acres of habitat management lands to offset impacts resulting from campus expansion. The 80-acre compensation parcel located in Thermal Canyon was transferred to the National Park Service on 26 March 2009, which satisfied the Department's requirement for compensation.*

Purchase Mitigation Lands: *In June 2009 the Service approved a minor amendment to the Habitat Conservation Plan accepting the District's proposed partnership with the Mojave Desert Land Trust to jointly purchase 955 acres of additional tortoise mitigation land adjacent to Joshua Tree National Park, and ultimately deed this land to the Park.*

Firearms and Domestic Dogs: *As per MM18/C4.1.5, the Permittee is required to prohibit firearms and domestic dogs from the site. Canid signs observed inside the TA and IA during compliance inspections are summarized below in Table 5. No evidence of canid predation on desert tortoises was found during the June 2011 compliance inspection.*

TABLE 5. SUMMARY DATA FOR CANIDS (DOGS & COYOTES)

Inspection # /Date	Canid Tracks in Translocation Area	Canid Tracks in Impact Area
1. Jan 2009	4 (29%*)	10 (71%)
2. Feb 2009	0 (0%)	3 (100%)
3. Mar 2009	1 (25%)	3 (75%)
4. Apr 2009	1 (50%)	1 (50%)
5. May 2009	2 (67%)	1 (33%)
6. June 2009	3 (75%)	1 (25%)
7. July 2009	0 (0%)	0 (0%)
8. Aug 2009	3 (75%)	1 (25%)
9. Sep 2009	2 (66%)	1 (33%)
10. Oct 2009	1 (50%)	1 (50%)
11. Nov 2009	2 (66%)	1(33%)
12. Dec 2009	1 (50%)	1 (50%)
13. Jan 2010	1 (50%)	1 (50%)
14. Feb 2010	2 (40%)	3 (60%)
15. Mar 2010	3 (60%)	2 (40%)
16. Apr 2010	1 (50%)	1 (50%)
17. May 2010	0 (0%)	0 (0%)
18. June 2010	3 (60%)	2 (40%)
19. July 2010	1 (50%)	1 (50%)
20. Aug 2010	2 (67%)	1 (33%)
21. Sep 2010	1 (50%)	1 (50%)
22. Oct 2010	1 (50%)	1 (50%)
23. Nov 2010	1 (33%)	2 (67%)
24. Dec 2010	1 (50%)	1 (50%)
25. Jan 2011	2 (50%)	2 (50%)
26. Feb 2011	1 (25%)	3 (75%)
27. Mar 2011	1 (50%)	1 (50%)
28. Apr 2011	1 (50%)	1 (50%)
29. May 2011	0 (0%)	1 (100%)
30. June 2011	1 (50%)	1 (50%)

* Percentages are derived from the total amount of canid sign observed on a given visit, which is the percentage of the total observed in each of the two areas for that particular visit.

Monthly Compliance Inspections: *As per MM24/C4.2.4, compliance inspections are to be conducted monthly. This report represents the 30th of 40 anticipated monthly compliance reports.*

Failure to Implement Mitigation Measures: *As per MM26/C4.2.3, the Permittee is required to notify the Department immediately if any mitigation measures have not been implemented as give in the Permit. Thus far, all mitigation measures have been implemented in a timely manner.*

Stop Construction Activities: *As per MM28/C4.1.6, the Designated Biologist and FCR have authority to stop any construction activity that is not in compliance with the Permit. There has been no need to stop construction activities during any of compliance inspections.*

Accessing the Construction Site Via Existing Routes: *As per MM29/C4.1.9, all project-related personnel are to access the site through approved routes and there is to be no cross-country travel. The current paved access routes do not constitute a hazard to desert tortoises.*

Clean-up of Hazardous Waste Leaks or Spills: *As per MM30/C4.1.11, all hazardous waste leaks and spills are to be promptly cleaned up and disposed of properly.* The District has yet to find any spills that need to be cleaned up.

Contain All Construction Activities: *As per MM31/C4.1.10, all construction impacts are to be confined to the IA with vehicle speeds not to exceed 20 miles per hour.* Delaney saw no evidence that construction impacts had occurred outside the IA.

Handling Injured Tortoises: *As per MM32/C4.3.10 and MM33/C4.2.8, all injured tortoises are to be taken to a local veterinarian and the Department contacted and all dead tortoises are to be collected and the Department contacted.* To our knowledge, there have been no tortoises injured or accidentally killed as a result of expansion activities.

Clean-up Upon Completion of Work: *As per MM36/C4.1.13, all construction materials are to be removed from the site upon project completion.* It is too early to implement this measure.

Final Mitigation Report: *As per MM37/C4.2.7, a final mitigation report must be submitted to the Department no later than 45 days after completion of each phase.* No phases have yet been completed, so it is too early to implement this measure.

Non-Native Weed Management in the TA: *Although the Department's Permit does not identify any weed management measures, Section 3.2.2d.8 of the Environmental Assessment identifies the following Translocation Area Management action: "Perform an annual assessment to determine the presence of non-native invasive plant species within the Translocation Area."* During 2009 and 2010, volunteers removed 6069 individual non-native plants, Moroccan mustards (*Brassica tournefortii*) and tansy mustards (*Descurainia pinnata*), growing along the TA fencelines. During 2011 compliance inspections very few invasive mustard plants were observed along TA fencelines, so the prior weed mitigation efforts were considered successful.

REMEDIAL ACTIONS:

The District and its subcontractors have conscientiously implemented mitigation measures since the previous compliance inspection, but several issues need to be addressed on an ongoing basis:

Translocation Area Fence Maintenance: District personnel will continue to regularly monitor the Translocation Area (TA) fencelines.

Trash Abatement: Personnel from the District removed litter from the IA and TA during mitigation and monitoring activities this month, and will continue these efforts.

Invasive Plant Species (Weed) Abatement: Delaney will monitor the effectiveness of weed abatement from year to year, and recruit volunteers to remove weeds from the TA.

Minimizing Predator Subsidies: There were two to four ravens present on campus in June 2011. The District will continue to focus weekly raven surveys on the TA fence-lines to check for raven-predated tortoises and minimize predator subsidies on campus.

Monitoring Tortoise Population For Infectious Diseases: No infected tortoises have been found since a *Mycoplasma*-antibody-positive pet tortoise was removed from the Translocation Area (TA) in April 2010, and quarantined off-campus.

Request for a Minor Amendment to the Habitat Conservation Plan: In March 2011, Delaney proposed a minor amendment to the District's Habitat Conservation Plan (HCP) permitting blood testing and telemetry of desert tortoises within the Translocation Area (TA). The proposed minor amendment was approved by Raymond Bransfield of the Service (letter dated 03 June 2011), and is under review by Rebecca Jones of the Department.

This concludes the 30th of 40 anticipated monthly compliance inspections and reports for authorized expansion activities. This report was completed by Paul Delaney and reviewed by Dan Cain and Ed LaRue, who may be contacted using the information below.
